

Your Opportunity. Your Bond.

You won the contract. Now get the bond you need to get to work.

If you've been awarded a contract that requires a performance bond, the American Samoa Business Growth Fund Bond Guaranty Program may be able to help. We partner with insurance companies to help qualified American Samoa contractors secure the performance bonds they need.

What is a performance bond?

A performance bond gives the project owner assurance that you will complete the work according to your contract. Many government and commercial contracts require one before work can begin.

Do I qualify?

Your business may qualify if it has fewer than 750 employees (including affiliates), operates in American Samoa or supports the local economy, and needs a performance bond for a contract that has already been awarded.

Not bond-ready yet?

Get support from the American Samoa SBDC to strengthen your bond application before you apply.
